Title : Sales Forecasting using Time Series and Neural Networks		
Class/Section :	Register Number	Name
Big Data and Data Analytics	171046001	Carol Steffi Dcunha
2 nd Semester	171046037	Sushmitha Shetty

- We have obtained data from <https://www.kaggle.com/c/rossmann-store-sales> for Rossmann Store Sales
- We have considered to forecast sales using store, promotion, and competitor data
- We are interpreting the data obtained
- Now we are focusing on creating a statistical model for the forecasting
- Alongside, we are learning concepts of R language to develop the model
